SUMMARY

UI/UX Designer with experience designing real-world web and mobile products, including travel platforms, company websites, and productivity applications. Skilled in user research, wireframing, prototyping, and responsive design using Figma, Adobe Photoshop, and Canva. Experienced in leading end-to-end UI/UX projects independently and creating social media creatives that align with product and business goals.

WORK EXPERIENCE

Nep Tech Pal Pvt Ltd | UI/UX Intern | December 2024- March 2025

- Designed web and mobile UI in Figma for real-world projects, including a Daily Tracker app, an AI photo editing app, and a Customer Service chatbot.
- Created wireframes, user flows, and interactive prototypes to improve usability and user experience.
- Refined designs based on feedback to ensure consistency across platforms.

Clickbyte Technologies Pvt. Ltd. | UI/UX Designer & Graphic Designer | February 2026-July 2026

- Led the end-to-end UI/UX design of 1500rs.com, creating responsive layouts and booking experiences independently.
- Designed the Clickbyte Technologies website from wireframes to high-fidelity mockups.
- Designed a confidential internal product, including user research, wireframing, prototyping, and high-fidelity interfaces for mobile and desktop platforms.
- Designed 30+ social media posters and marketing graphics for 1500rs.com and various company projects.

PROFESSIONAL PROJECTS

Daily Tracker App

- Collaborated with the design team to create a mobile app for tracking daily habits, tasks, and income/expenses.
- Designed high-fidelity interfaces and interactive prototypes in Figma.
- Improved the user experience based on feedback.

Clickbyte Technologies Pvt. Ltd.

- Collected project requirements and translated business goals into intuitive digital experiences.
- Conducted research and organized information architecture to enhance usability.
- Designed the complete UI/UX of the company's official website, from wireframes to final mockups.
- Built interactive prototypes in Figma to showcase user flows and interactions.
- Created responsive interfaces optimized for desktop and mobile devices.
- Worked closely with stakeholders to iterate and improve the design experience.

1500rs.com

- Gathered business requirements and user insights to improve the hotel booking experience.
- Planned user journeys and designed wireframes for stays, packages, and group-stay features.
- Created responsive, high-fidelity designs in Figma for both mobile and desktop platforms.
- Collaborated with the team to refine designs based on feedback and evolving requirements.
- Designed social media creatives and promotional materials to support marketing campaigns.

CONCEPT PROJECTS

Chat Box AI

AI-powered customer support platform that helps online stores automate conversations and assist customers with product inquiries and support requests.

E-commerce Website UI Design (Luxury Watch Store)

E-commerce platform for browsing and purchasing watches, featuring product listings, categories, and a streamlined shopping experience.

E-commerce Admin Dashboard

Modern dashboard for managing products, orders, customers, analytics, and overall store operations.

Real Estate Platform

Property marketplace that connects buyers and sellers directly, enabling property discovery and communication without third-party agents.
